H1: Amethyst Stone (Jamunia Stone)

Banner Image: [[PLACEHOLDER – IMAGE](#)]

Intro line: Amethyst, known as Jamunia or Katela, is one of the most popular gemstones in the world, with a beautiful purple shade ranging from soft lavender to deep violet. In Vedic astrology, it's related to Saturn (Shani), the planet of discipline, karma, and change.

About Section (H2)

About Amethyst (Jamunia)

Amethyst is a type of quartz, also called Jamunia or Katela, with its purple colour coming from trace iron in its crystal structure. In Vedic astrology, it's connected to Saturn and is often considered a substitute for Blue Sapphire (Neelam).

How to Wear Section (H2)

How to Wear Amethyst Stone

- **Metal:** Silver or Platinum

- **Finger:** Middle finger of the working hand
 - **Day & Time:** Saturday evening, after sunset
 - **Mantra:** "Om Sham Shanishcharaye Namah", chanted 108 times
-

Benefits Section (H2)

Benefits of Wearing Amethyst

- Believed to reduce the effects of a weak or malefic Saturn
 - Associated with mental clarity and improved focus
 - May support emotional balance and reduced stress
 - Believed to enhance spiritual growth and intuition
-

Quality & Price Section (H2)

Quality & Price

Amethyst value depends on colour depth, clarity, and origin — deep violet "Siberian" quality is most prized. In India, prices generally range from ₹150 to ₹1,50,000+ per carat depending on quality. *(Confirm current pricing with Rohit Sharma before publishing.)*

FAQ Section (H2)

Q1. What is amethyst called in Hindi?

Amethyst is known as Jamunia or Katela in Hindi.

Q2. Which planet is amethyst connected to?

Saturn (Shani).

Q3. In which finger should amethyst be worn?

The middle finger of the working hand.

H1: Turquoise Stone (Feroza Stone)

Banner Image: [[PLACEHOLDER – IMAGE](#)]

Intro line: Feroza, known as Turquoise in English, is a striking blue-green gemstone valued for its protective properties. Associated with Jupiter (Guru) in Vedic astrology, it's believed to bring good fortune, mental clarity, and emotional balance.

About Section (H2)

About Turquoise (Feroza)

Feroza is a blue-green gemstone found in regions like Iran and Tibet, treasured for centuries for its beauty and spiritual significance. Associated with Jupiter, the planet of wisdom and prosperity, it's believed to attract positive energy and support emotional stability.

How to Wear Section (H2)

How to Wear Feroza Stone

- **Metal:** Silver, Gold, Platinum, or Panchdhatu
 - **Finger:** Index or middle finger of the right hand
 - **Day & Time:** Thursday morning, during Shukla Paksha
 - **Mantra:** "Om Brihaspataye Namah", chanted 108 times
-

Benefits Section (H2)

Benefits of Wearing Turquoise

- Believed to support academic and creative success
 - Associated with better financial stability and growth
 - Linked to emotional healing and reduced stress
 - Believed to offer protection and support spiritual growth
-

Quality & Price Section (H2)

Quality & Price

Turquoise value depends on colour vibrancy, matrix presence, and origin — stones with minimal matrix and rich, even blue tones are most valued. In India, prices generally range from ₹1,500 to ₹15,000+ per carat depending on quality. *(Confirm current pricing with Rohit Sharma before publishing.)*

FAQ Section (H2)

Q1. What is Feroza stone used for?

Known for bringing good fortune, protection from negative energy, and improved communication.

Q2. Which planet does Feroza represent?

Jupiter (Guru), the planet of wisdom and prosperity.

Q3. Which finger is best for wearing Feroza?

The index or middle finger of the right hand.

H1: Neeli Stone (Iolite Stone)

Banner Image: [[PLACEHOLDER – IMAGE](#)]

Intro line: Iolite, also known as Neeli stone, is highly valued in Vedic astrology for bringing focus, confidence, and career growth. Connected to Saturn (Shani), it's a popular and more affordable substitute for Blue Sapphire.

About Section (H2)

About Neeli Stone (Iolite)

Neeli stone, known in English as Iolite, is a blue-violet gemstone from the cordierite family, also called Kaka Neeli or Water Sapphire. In Vedic astrology, it's connected to Saturn and considered a powerful substitute for Blue Sapphire (Neelam).

How to Wear Section (H2)

How to Wear Neeli Stone

- **Metal:** Silver
 - **Finger:** Middle finger of the working hand
 - **Day & Time:** Saturday morning, during Shukla Paksha
 - **Mantra:** "Om Sham Shanicharaya Namah", chanted 108 times
 - **Recommended Weight:** Roughly 1 carat per 10 kg of body weight
-

Benefits Section (H2)

Benefits of Wearing Iolite

- Believed to improve focus, memory, and decision-making
 - Associated with career growth and reduced Saturn-related delays
 - May help reduce the effects of Sade Sati or Shani Dosha
 - Believed to support intuition and emotional peace
-

Quality & Price Section (H2)

Quality & Price

Neeli stone value depends on colour depth, clarity, and origin — Ceylon and Kashmir-origin stones are most prized. In India, prices generally range from ₹1,000 to ₹15,000+ per carat depending on quality. *(Confirm current pricing with Rohit Sharma before publishing.)*

FAQ Section (H2)

Q1. What is Neeli stone in English?

Neeli stone is called Iolite in English.

Q2. What is the difference between Iolite and Blue Sapphire?

Iolite is a more affordable substitute for Blue Sapphire — both are connected with Saturn, but Blue Sapphire is more powerful and expensive.

Q3. Is Iolite good for students?

Yes, it's believed to support concentration, memory, and mental clarity.

H1: Pitambari Neelam Stone

Banner Image: [PLACEHOLDER – IMAGE]

Intro line: Pitambari Neelam is a rare and powerful gemstone in Vedic astrology, known for its unique blue-yellow shades. Believed to enhance discipline, intelligence, confidence, and financial growth, it's recommended for stability and career success.

About Section (H2)

About Pitambari Neelam

Pitambari Neelam is a rare bi-colour gemstone displaying both blue and yellow shades, also known as Pitambari Nila or Neela Pathar. It's highly respected in Vedic astrology for balancing the energies of Saturn and Jupiter together.

How to Wear Section (H2)

How to Wear Pitambari Neelam

- **Metal:** Silver
 - **Finger:** Middle or ring finger of the working hand
 - **Day & Time:** Thursday or Saturday, during sunrise, in Shukla Paksha
 - **Mantra:** "Om Sham Shanicharaya Namah" or "Om Gurave Namah", chanted 108 times
 - **Recommended Weight:** Roughly 1 carat per 12 kg of body weight
-

Benefits Section (H2)

Benefits of Wearing Pitambari Neelam

- Believed to improve decision-making and mental clarity
 - Associated with financial growth and career stability
 - May help balance Saturn and Jupiter energies during difficult planetary phases
 - Believed to support emotional stability and reduced stress
-

Quality & Price Section (H2)

Quality & Price

Pitambari Neelam value depends on colour balance, clarity, and origin — stones with a bright, even blue-yellow combination are most valued. Pricing varies based on size and certification. *(Confirm current pricing with Rohit Sharma before publishing.)*

FAQ Section (H2)

Q1. What is Pitambari Neelam?

A rare gemstone combining Blue Sapphire and Yellow Sapphire energies together.

Q2. Who should wear Pitambari Neelam?

Those with a weak Saturn or Jupiter, career instability, or leadership responsibilities.

Q3. Can Pitambari Neelam be worn with other gemstones?

Yes, after astrological guidance confirming compatibility.

H1: Citrine Stone (Sunela Stone)

Banner Image: [[PLACEHOLDER – IMAGE](#)]

Intro line: Citrine, known as Sunela in Hindi, is a golden-yellow variety of quartz celebrated for its vibrant hue and uplifting energy. Known as the "Merchant's Stone," it's believed to attract wealth, prosperity, and confidence — and is widely used as an affordable substitute for Yellow Sapphire (Pukhraj).

About Section (H2)

About Citrine (Sunela Stone)

Citrine, also known as Sunela Ratna, is a yellow gemstone from the Quartz family. In Vedic astrology, it's associated with Jupiter (Guru) and is believed to bring wealth, success, and joy. Its warm golden tones symbolize positivity, abundance, and creativity.

How to Wear Section (H2)

How to Wear Sunela Stone

- **Metal:** Gold or Silver
 - **Finger:** Index finger of the working hand
 - **Day & Time:** Thursday morning, during Shukla Paksha
 - **Mantra:** "Om Graam Greem Graum Sah Gurave Namah", chanted 108 times
-

Benefits Section (H2)

Benefits of Wearing Citrine

- Believed to promote financial growth and attract business opportunities
 - Associated with sharper focus, memory, and creative thinking
 - May help restore emotional balance and reduce stress
 - Believed to support relationship harmony and positivity in daily life
-

Quality & Price Section (H2)

Quality & Price

Citrine value depends on colour richness, clarity, and origin — deep golden-yellow stones are most valued. Natural citrine is rare; most commercially available stones are heat-treated amethyst. In India, prices generally start from ₹150 per carat for standard quality. *(Confirm current pricing with Rohit Sharma before publishing.)*

FAQ Section (H2)

Q1. What is Sunela Stone in English?

Sunela Stone is called Citrine in English — a yellow variety of quartz.

Q2. Which planet is Citrine connected to?

Jupiter (Guru) — making it a popular substitute for Yellow Sapphire (Pukhraj).

Q3. In which finger should Citrine be worn?

The index finger of the working hand, ideally in gold or silver.

H1: Garnet Stone

Banner Image: [[PLACEHOLDER – IMAGE](#)]

Intro line: Garnet, known as Raktmani in Hindi, is a powerful and deeply coloured gemstone cherished for centuries for its vibrant energy and protective qualities. Associated with Mars, it's known as a stone of strength, passion, and courage.

About Section (H2)

About Garnet Stone

The name Garnet comes from the Latin word "granatum," meaning pomegranate — a reflection of its most well-known deep red colour. While red is the most popular variety, garnet is found in a rich range of colours including green, orange, yellow, and purple. In Vedic astrology, it's connected to Mars (Mangal) and Rahu, and is the January birthstone in Western tradition.

How to Wear Section (H2)

How to Wear Garnet Stone

- **Metal:** Silver or Gold
 - **Finger:** Middle or ring finger of the working hand
 - **Day & Time:** Saturday morning, 5–7 AM
 - **Recommended Weight:** Roughly 1/10th of body weight in carats
-

Benefits Section (H2)

Benefits of Wearing Garnet

- Believed to offer protection from negative energy and the evil eye
 - Associated with increased confidence, passion, and inner strength
 - May support emotional healing and reduced anxiety
 - Linked to improved energy levels, focus, and motivation
-

Quality & Price Section (H2)

Quality & Price

Garnet value depends on colour, clarity, cut, and origin — deep red Pyrope and rare green Demantoid garnets are the most prized. In India, prices generally start from ₹500 per carat for standard quality. *(Confirm current pricing with Rohit Sharma before publishing.)*

FAQ Section (H2)

Q1. What is Garnet called in Hindi?

Garnet is known as Raktmani in Hindi.

Q2. Which planet is Garnet connected to?

Mars (Mangal) and Rahu — making it useful for strengthening these planetary influences.

Q3. Who should wear Garnet?

Those with a weak Mars or Rahu, Capricorn and Aquarius signs, and January-born individuals. Always consult Rohit Sharma first.

H1: Zircon Stone (Jarkan Stone)

Banner Image: [[PLACEHOLDER – IMAGE](#)]

Intro line: Zircon, known as Jarkan in Hindi, is one of the oldest minerals on Earth — prized for centuries for its brilliant clarity and radiant sparkle. In Vedic astrology, it's associated with Venus (Shukra) and is widely used as an affordable substitute for Diamond, bringing love, prosperity, and harmony to its wearer.

About Section (H2)

About Zircon Stone (Jarkan)

Zircon, also known as Zarkan or Jarkan Ratna, is a natural semi-precious gemstone connected to Venus (Shukra) in Vedic astrology — the planet of love, beauty, luxury, and creativity. It's the December birthstone in Western tradition and is considered one of the most effective diamond substitutes for those seeking Venus's blessings at a more accessible price.

How to Wear Section (H2)

How to Wear Jarkan Stone

- **Metal:** Silver or Platinum
 - **Finger:** Ring finger or little finger of the working hand
 - **Day & Time:** Friday morning, 5–7 AM, during Shukla Paksha
 - **Mantra:** "Om Shukraye Namah", chanted 108 times
 - **Recommended Weight:** Minimum 4–5 carats, as advised by your astrologer
-

Benefits Section (H2)

Benefits of Wearing Zircon

- Believed to strengthen Venus's influence, supporting love and marital harmony
 - Associated with financial growth, prosperity, and new opportunities
 - May support mental clarity, reduced stress, and emotional balance
 - Linked to improved confidence and creativity in personal and professional life
-

Quality & Price Section (H2)

Quality & Price

Zircon value depends on colour, clarity, brilliance, and origin — blue and colourless zircons from Cambodia and Sri Lanka are most prized. In India, prices generally range from ₹500 to ₹5,000+ per carat depending on quality and colour. *(Confirm current pricing with Rohit Sharma before publishing.)*

FAQ Section (H2)

Q1. What is Zircon called in Hindi?

Zircon is known as Jarkan or Zarkan in Hindi.

Q2. Which planet is Zircon connected to?

Venus (Shukra) — making it a popular substitute for Diamond.

Q3. Who should wear Jarkan Stone?

Libra and Taurus ascendants, or those with a weak Venus — always after consulting Rohit Sharma.

Q4. Is Zircon the same as Cubic Zirconia?

No — Zircon is a natural mineral, while Cubic Zirconia is man-made. Only natural Zircon carries astrological value.
